OS Compatibility (#p1211)

by **Digital Larry** » Sat May 04, 2013 7:43 am

As of the date of this post, SpinCAD Designer has been tested on Windows 7 and found to be functional. Let me know if you are using it with a different flavor of Windows. Here, I am using Java SE Development Kit 7 Update 9 along with Java 7 update 17. These can be downloaded here:

<http://www.oracle.com/technetwork/java/...32155.html> (<http://www.oracle.com/technetwork/java/javase/downloads/java-se-jre-7-download-432155.html>)

All builds after 335 have been compiled for compatibility with Java 1.6, so they should work on Mac OS/X installed with Java 1.6. They should also work OK with JRE 1.7 installed.

We also have reports of SpinCAD Designer working OK with Linux, see below.

Re: OS Compatibility (#p1237)

by **slacker** » Tue May 07, 2013 9:12 am

I'm using Windows XP and JRE 7u21 I've only tried a very quick test connecting an input block to an output block and creating a spin asm file but that works and the simulator appears to work, tested using the minimum reverb block. I'm running Windows on a virtual machine so on real hardware it may behave differently.

I've also tested it on Slackware Linux 14 using JDK 7u21 and the same tests as above work.

Re: OS Compatibility (#p1244)

by **Digital Larry** » Wed May 08, 2013 9:30 am

Hi Slacker, on what type of machine are you running XP under a VM? I'm guessing some type of Mac, but...??? want to be certain.

Re: OS Compatibility (#p1245)

by **slacker** » Wed May 08, 2013 10:48 am

Its a PC running Slackware Linux, I've used this as my operating system for over 10 years. XP was installed on a VM purely so I could use spinasm, as I couldn't get it to run using WINE (<http://www.winehq.org/about/>) which is what I use for the other odd bit of Windows software. The VM is Oracle's Virtualbox.

Re: OS Compatibility (#p1354)

by **hkwijhe** » Tue Jun 18, 2013 9:57 am

My laptop runs windows 8 and it works fine.

The only issue until now is that "help" does not work.
"About" works fine.

Regards,

Hans

Re: OS Compatibility (#p1355)

by **Digital Larry** » Tue Jun 18, 2013 12:51 pm

Thanks for the note. Regarding "Help"... there isn't any yet! 😊

This is as close as it's going to get for awhile.
